

SEED CORN ON THE HARRIS FARM

Every one of these hundreds of ears is submitted to the germination test, and only those ears that germinate satisfactorily are retained for seed.

NOTHING IS WASTED ON HARRIS ESTATE

Burning Anything Useful for Feed or Fertility a High Crime—Whole Farm a Lesson in Conservation.

Conservation is the watchword on the B. F. Harris farm in Seymour. Nothing is wasted. The oak monoliths which Mr. Harris was obliged to fell to let light upon his blue grass pastures, were sawed up into lumber for barns and sheds.

The great stacks of wheat straw that are left after threshing are loaded into Mr. Harris' famous straw spreader and scattered over the winter wheat, giving fertility to the soil and protecting the tender sprouts during the winter.

"We burn nothing," says Mr. Harris.

emphatically. "One of our men, without authority, set fire to some loose ends of hay left after baling. The blaze spread and did some damage. We dispersed with his services."

Perhaps Mr. Harris' statement should not be taken too literally. There are a lot of farms that need nothing so much as a bon fire. Clutter, such as old wagon beds, discarded sleds, broken wheels, etc., that characterize so many farm places, is conspicuous for its absence on the Harris farm. But it is certain that nothing that would be useful and nothing that would give fertility to the soil, is destroyed.

Stock Raising Conservation.

Stock raising, itself to which the great farm is devoted, is a practical illustration in the conservation of fertility. The miles upon miles of diamond, which Mr. Harris has laid in the last two years, represent an attempt to conserve needed moisture and warmth as well as to take off the excess moisture.

Mr. Harris is trying to teach his neighbors that stock raising pays. The Harris picnic is as much an institution in Champaign county as the Funk farm picnic is in McLean.

"Haise stock" is Mr. Harris' repeated exhortation to his neighbors. You can take on a few sheep, or a few more hogs far more cheaply than I can.

Cleaning Up The Odds and Ends.

"Sheep will feed themselves. We had a big stand of grass on one of our dikes. The labor cost of cutting it would have been exorbitant. We just ran wire fences along the dike and turned in the sheep. They cropped it so close that it looked if a lawn mower had gone over it.

"Last Spring we opened up a road, and I wanted to get rid of the weeds that lined it. We bought a carload of goats. They ate the weeds, and then we rounded them up and sent them to Chicago."

WHEAT LOOKS SPINDLY BECAUSE OF DRY FALL

Thanksgiving Will See the Largest Part of the Illinois Corn Crop In the Crib.

The weekly grain letter, issued by H. I. Baldwin & Co., Saturday follows:

"Growing wheat looks a little spindly on account of dry fall. When it does start to rain we probably will get a plenty."

Corn shucking progressing rapidly. Thanksgiving will see the crop mostly in cribs. Many elevators have closed their doors and cannot receive corn until after show up to carry it. This situation will probably continue for month to come.

Partly Helped Some.

"The coal men, the Interstate commerce commission and the railroads have had a party at Louisville, Ky. It looks like they played coal cards and helped matters. Grain dealers are picking up their cars at this and show signs of getting busy, too."

Illinois has so far on this crop been the chief factor in making the corn market. It is evident that the section of the corn belt running through Iowa, Nebraska, South Dakota, Wisconsin and Minnesota will soon be freed from the heavy weight of a winter crop. They have as a whole, a greater yield of corn than we. Are getting along pretty well with the corn harvest and will not make any sized shipments to terminal markets in December. It is a pleasure to read the grading certificates for corn this year. Think that the average moisture content in this section is under 18 per cent now. The fierce heat of last summer did not drive the oil out of the corn, on the contrary the 1916 crop yields about 12 pounds of oil to each bushel. The winter in his time has seen the farmer sell a bushel of corn for the same money that the corn oil in a bushel will sell for now.

"Dealers are not taking time or care to load oats now, and movement is lightest on the crop."

RULES ARE DISCUSSED

Canning Club Girls Plan to Enter Exhibits for Institute.

A number of the Macon County Canning Club representatives attended the meeting in the Y. M. C. A. Saturday afternoon. The time was passed in discussing the rules of the canning department of the Institute.

Girls who are in the club and wish to enter canned goods at the Institute, must send one report to James H. Greene, University Extension Department, Urbana, and to Mr. Howard A. Beverly, Decatur, Ill. No. 1, by 1.

In Scotland 23.8 per cent. of illuminating gas is made in municipal works to 51.4 per cent. in Ireland and 29.5 per cent. in England.

COTTON FARMERS ARE MAKING BIG MONEY

R. D. Hill Sees 35 Bushel Corn in Arkansas that Was Sold for \$1 a Bushel.

R. D. Hill has returned to Decatur after a visit with friends in Arkansas and other cities in Arkansas, and was much impressed by some of the things that he saw during his first visit to that state. "Remember that I still believe that Illinois is one of the greatest, if not the greatest agricultural states in the Union, but Arkansas is not so slow in that line. I saw fairly good corn there which I was told had made an average of 35 bushels to the acre, and they were selling it for \$1 per bushel."

Cotton Staple Crop.

"Cotton is, however, the staple crop and I saw in one place 15,000 bales of cotton. I don't remember what the price was but I do remember that it was said to be the highest price paid for cotton since the civil war and reports of planters who have made \$100 per acre on their cotton crop this year were common. What degree of accuracy there was in those statements I do not know, but it seemed to me that cotton was piled everywhere and some of those Arkansas towns with populations ranging from 3,000 to 6,000 people were fairly bubbling with business and every one seemed to have money."

NEW DEVICE DIRECTS MOTORISTS TO GOAL

Automatic Mileometer Points Out Every Turn Road from Various Cities.

If a new device which is to be placed on sale at the W. L. Shellabarger & Sons' garage in a few months proves to be a success, automobile drivers need make no mistake in the roads they choose on long trips. The device is a "mileometer," made on the same principles as a speedometer.

Points Out the Way.

In the device, a linen tape announces the distance traveled and tells the driver every turn and direction to take in going from a certain city to another. Special tapes bearing directions for trips from nearly any two cities are provided at no cost after a mileometer is bought. If a motorist desires to go to Quincy, he follows the directions of a tape to Springfield, given him at the Decatur service station. This tape takes him to the service station in Springfield, where another is obtained to show the road and all its turns just as the motorist reaches them on the rest of the trip to Quincy.

The same system is followed to all parts of the United States. The device will not be put in stock until the first of next year. A road map is included in the initial cost.

MANY LICENSES ISSUED.

Thirty-six hunters' licenses were issued from the county clerk's office Saturday and 13 from the city clerk's office. The county clerk's office has issued 850 this season and the city clerk 225.

CREDIT MEN BANQUET

Annual Meeting in Hotel Orlando Monday Evening.

The Decatur Association of Credit Men will have the annual banquet on Monday night in the private dining room of the Hotel Orlando. About 50, including local and Springfield men will be present.

S. J. Whitlock, one of the directors of the national association, will be one of the principal speakers. Several others will speak and an interesting program will be given.

Hot Fomentations or Hot Packs

THIS forms one of the most widely used agents at the world famous Battle Creek Sanitarium, and allied institutions. Fomentations are flannel cloths heated in live steam as hot as can be borne by the body, and wrapped in woolen blankets.

They are applied directly to the affected parts. Hot Fomentations are, particularly valuable in the treatment of severe colds, rheumatism, lumbago and neuritis.

Good for Well Folks

Well for Ill Folks

Fomentations can be administered to the delicate as well as the robust — its power to stimulate bodily functions, its absolute effect, through the nerves of the skin upon the entire body, and the power it possesses to relieve pain and stimulate the vital functions of repair, make it a most useful remedial agent.

Laymen Condemn High School Dancing Order

Question Brought Up Unexpectedly in Church Council After Ministers Had Agreed Not to Introduce It, and Referred to Community Welfare Committee.

High school dancing after a three-day session in the ministerial association for two days, finally being discussed yesterday morning by the superintendent of schools, called before the ministers, hopped up again yesterday in the regular meeting of the council of the church federation.

It came this time from laymen, apparently without any knowledge on the part of the ministerial delegates that it was to be brought up, since Rev. F. A. Havighurst of the First Methodist church said that he had no idea that it would be presented. Both he and Rev. C. E. Jenney of the First Presbyterian church, however, expressed their satisfaction that the laymen had chosen to state their convictions and out of courtesy to them voted with the other delegates that the question be referred to the Community Welfare committee of the church federation for investigation and report.

Prof. W. W. Smith is chairman of the committee.

Coming Up Without Warning.

Routine business had been dispatched with alacrity by the council representing 15 churches, and President T. M. Deam had announced that a motion to adjourn would be in order when George G. Turner of Sargent chapel secured the floor.

After a few introductory remarks on the purpose of the federation, which in his opinion should be steady, Mr. Turner launched into his subject with the statement: "I don't see how anybody who has ever read Faulkner's 'From Ball Room to Hell' can favor dancing. My remarks may be unpropitious, but this subject has been brought up by anybody else, I conceive it my duty to bring it up."

"I dislike to cause embarrassment to any member of this council, but it does not seem to me that the church federation, if it is going to be any more than a social organization, ought not to look with favor upon dancing in the high school."

Father of High School Girl Speaks.

Mr. Turner was followed immediately by John Shelton, representing the church of God, who said: "I agree with Mr. Turner. I speak as the father of a daughter who is in the high school. I have never danced myself and I don't see how Christian people can tolerate dancing."

Not a Siderack, Says Havighurst.

"I think these brethren should clearly understand," said Dr. Havighurst, "that this action is not intended to sidetrack the question they raise, but to deal with it in an orderly manner. Personally I should not have brought it up, but I am happy that these laymen have expressed themselves as they ought to feel free to do." Dr. Jenney said that Dr. Havighurst had spoken his sentiments and Mr. Shelton said that he recognized Mr. Scott's motion as the proper one here the discussion ended and the motion, being carried adjournment was taken.

Committee Not Told.

Rev. Frank Fox made a report from the committee of the Ministerial association in co-operation with the church federation, announcing the plans for an evangelistic campaign in November. He also reported for the federation publicity committee, telling what had been done in advertising. His recommendation that \$200 be appropriated to the committee for publicity was unanimously adopted. He said that the newspapers had agreed to feature the "Go to Church" slogan for church rally day next Sunday.

Prof. Smith discussed the welfare committee's plans, dwelling on some length on the coming conference of churches to be held in October in which topics would be discussed of general interest to the churches. Speeches will be heard in three morning sessions on the 24th.

Secretary Resigns.

Heartily endorsement was given to the conference of the Older Boys of the Y. M. C. A. which meets in Aurora. The hope was expressed that the conference next year would be held in Aurora. Feb. 22, as the date of the Fathers and Sons banquet will be placed on the church calendar. Rev. R. E. Henry reported for the open air meetings held in Fairview in July and August. They were so successful that a similar arrangement will be made for next summer.

Mr. Deam announced that Miss

Linn & Scruggs Store Beautifully Decorated

Scores of admiring spectators gathered about the Linn & Scruggs store windows Tuesday evening, following the unveiling of the special decorations prepared in honor of the golden jubilee of the establishment, and thought to be the most beautiful in the history.

The windows, in royal blue, gold and brown, present an effect at once rich and striking that no passer is likely to fail to notice. The decorations were attracted not only by the decorative effects achieved by the color hangings with gold overtones, but also by the fine display of the entire store interior, in both windows and the store interior, both designed and carried out by Clarke Corp. of window trimmings. Mr. Clarke was at work six months in preparation of the effects, which represent a substantial money expenditure also.

WITH THE SICK

Rev. Father Murphy writes from Milwaukee, where he is receiving treatment for pneumonia, that his condition has been improved since entering the sanitarium, but the disease yet bothers him not a little. He does not give any intimation as to the time that he may expect to return home.

Y. M. C. A. OPEN HOUSE FRIDAY

First Social Affair of Season Under Direction of Gerard Beekman

The Y. M. C. A. will have an open house Friday evening, beginning at 5 o'clock in order to acquaint the young men of the city with the work of the institution. It is the first of the season and will be held under the direction of Gerard Beekman, who came here recently from Buffalo, N. Y., to take charge of the activities. Mr. Beekman has plans for broadening the work of the Y. M. C. A. among the boys and young men of the city, and one of these is to increase the interest in the Y. M. C. A. in the industries of the city and at the same time give the speakers an opportunity for pleasure.

GRAND AVENUE CONTRACT LET

Contractors Birt & Driscoll Will Begin \$44,657.75 Job Immediately

The city council sitting as the board of local improvements Tuesday afternoon let the contract for the paving of Grand avenue from Water to Van Dyke streets to Birt & Driscoll for \$44,657.75. It is the second largest paving job of the season and the last to be authorized by the council.

Since the present administration has taken hold, it has authorized a total of \$137,999.45 worth of paving in the following streets: Grand avenue, \$44,657.75; Prairie street, \$16,379.50; Grand avenue, \$14,657.75; Cushing street, \$18,145.45; Taylor avenue, \$4,420.50; Woodlawn avenue, \$3,350.17.

There were three bidders for the Grand avenue job, and some of the keenest competition of the season as shown by the small margin between the bidders. Birt & Driscoll, \$44,657.75; Pile & Alexander bid \$48,283.34, a difference of \$3,625.59 compared to the successful bid, and Allan Jay, \$48,900.00.

After the bids were opened and read, Commissioner Mattes motion to award the contract to Birt & Driscoll was carried. Mr. Van Praag asked that property owners along the street put in all service pipes before the street will not be torn up as it is paved.

"We are going right out to buy shovels for that job now," said Arthur Birt, who the contract was awarded to his firm and the commissioners said "Go to it." The contractors have until Dec. 1 to complete the job but they hope they can have it completed before that time. Grading will be done with a steam shovel. Springfield paving block will be used in the wearing surface.

Last of Season.

While the Grand avenue job is the last to be awarded this season the board of local improvements will soon have a decision to pay projects to begin early next spring, so that the work can be done when the weather is more settled than it is in the fall. With the preliminaries necessary to every paving project out of the way by spring, the board will only have the contract to let as soon as the cold weather is at an end and the contractor can begin work in a short time.

Many Need Paving.

Eldorado and Wood streets are the two principal streets mentioned for repaving. The city engineer, C. G. Gordo and William streets are also mentioned. Petitions for West Olive and Ashland avenue are already in. Cerrito Gordo is in a bad condition and repairs to the railway stations and repairs to the street have been only temporary. Eldorado was mentioned for repaving early this year but the property owners objected. Wood street, in spots, is in a notoriously impassable condition. It is likely that if the majority of property owners petition for any of these projects the board will exercise its power to authorize pavements in spite of the wishes of the majority of the property owners abutting the streets in question, in the interest of public welfare.

There will be a lot of paving next year," said Mr. Van Praag Tuesday afternoon, and we will get all the preliminaries out of the way during the winter months."

HAS BROKEN ARM.

Alva G. Wilson has a broken arm. It is part of the experience that may come to all men who crank an auto so many years that they become careless of the possibilities.

DEEDS RECORDED.

Harry Plak to Jett Robinson, lot 155 and 156 Elm Ridge addition to Decatur, \$200.

Jett Robinson to James D. Johnson, lots 119, 120 and 121, Elm Ridge addition and lot 32 1/2, Elson Heights addition to Decatur, \$1,100.

Ida M. Antrim to Horace C. Gibbs, lots 15 and 16, block 3, Chamber of Commerce addition to Decatur, \$1,500.

B. M. Dennis to John R. Miller, lot 7 block 2 Imboden Springs 24 addition to Decatur, \$245.00.

SEPTEMBER STATISTICS

Dan Cupid Has Abandoned June

Ninety-one marriage licenses were issued during September and that month has far surpassed any record ever made by the month of June, famed as the month of marriage. Indeed, the month just closed has come within one of the record made by December 1917, when 92 licenses were issued. That was the high record for any single calendar month.

Building Improvements

Reach Total \$209,700

Building improvements totaling \$209,700 in value were authorized by the building department in September of this year, as compared with \$71,455 in September last year.

Almost one-half of the total, \$103,300, was to be invested in new dwellings, including the sum expended in remodeling dwelling houses, the total was \$107,000, for 24 new ones and remodeling seven others. The permits for the month, classified as follows:

24 dwellings	\$103,300
7 dwellings remodeled	3,760
4 house and building remodeled	7,490
2 factory buildings remodeled	65,700
2 factory buildings remodeled	3,500
1 public garage	3,200
78 private garages	15,000
Total	\$209,700

Big Increase in Number of Arrests

Police statistics show a big increase in the number of arrests over the August report, as there were 184 booked with Desk Sergeant Tim Collins during September. There were just 129 during August. Traffic violators head the list once more, with a grand total of 49. There were 22 in August and 41 in July.

Featuring the police activities of the month, the raid on the Lancaster place in 118 Marchant street everything. The trial of these men will be held Thursday in the court of Justice Harry C. Noble. Chief Allen promised last month that the number of cameras arrested would be the number of the month and he made good his promise with 32 in his credit. There were 32 during August.

The allegation that Decatur is dry may be disputed by some when they compare the number arrested for drunkenness this month. There were 32 booked during September, just twice as many as the previous month.

ACQUITTED OF GAMING CHARGE

Court Finds Evidence Collected by City Not Sufficient for Verdict

Taking into consideration the fact that the evidence was not sufficient to warrant a conviction of the five men arrested in the alleged gambling rooms of the Syndicate building recently, Justice Harry C. Noble Tuesday found R. C. Burcham, Clint Hure, P. F. Higney, J. V. Green and George Baez for guilty of gambling and dismissed the case. It is understood that the city will appeal the case to the higher courts.

As attorneys for the defense, Carey & Redman, appeared to the satisfaction of the court that the cards, poker chips and tables found in the room could not be classified as paraphernalia used for gaming purposes. The confiscated stuff proved to be 15 decks of cards, 17 chips, 10 checkers, two aprons and various other articles which are used in thousands of private homes throughout the country.

Not Caught Gambling.

City Attorney Monroe admitted that the men were not caught gambling, but that the court should find the parties guilty for having gambling paraphernalia in their possession.

In introducing testimony in regard to the heavy doors found in the room, the attorneys for the defense proved that the doors had been installed

three years previous to the time of the raid, and that tenants had been changed about June 15. The bars found in the closet of the room were proved to be false bars and there was only conclusion that could be reached was the fact that the rooms might have been repaired for use as a gaming house.

Change in Venue.

The case was an interesting one and many visited the court rooms during the day. The case was to have been called in the court of Justice R. E. Dickinson, but through a change in venue, was taken to Justice Noble.

MORE THAN 500 ATTEND CONCERT

People swarmed all over the lawn at the Pines Tuesday night to hear the Goodman band concert and to take part in the community sing. The 500 chairs provided did not care for half the crowd. Lights were strung over the lawn and gave a pretty setting for the affair. Community sing of men from the community near the Pines acted as ushers. Eldon Geisler led the sing which was one of the best which has ever been held there.

TO ELECT DELEGATES.

The Decatur Union of the W. C. T. U. meets this afternoon at 2:30 in the First Christian church. Delegates to the state convention will be elected.

TODAY'S MEETINGS.

Stephen Decatur Lodge, A. F. & A. M. special meeting in Eldorado Temple, 7 p. m.
